

## Job Corps Centers

Job Corps is an educational and career technical-training program for disadvantaged youth, aged 16 to 24. Since its inception in 1964, Job Corps has provided more than 2 million young adults with the academic, career technical and social-skills training required to compete in today's workforce. Currently, Job Corps serves approximately 60,000 young people at 126 campuses around the country, with a staff of more than 15,000.

Most Job Corps centers operate residential programs and provide breakfast, lunch, dinner and snacks during the week, and brunch and dinner on the weekends. Though they fall under the jurisdiction of the Department of Labor, Job Corps sites are either operated by contractors, private companies awarded center operations through competitive contracting processes, or by the U.S. Department of Agriculture's Forest Service, through an interagency agreement.
