

Zogics Wellness Wipes at Fort Bliss

Zogics Wellness Center Wipes are currently being used at McGregor Training Site Fitness and Wellness Center, Fort Bliss, Texas, where soldiers train prior to deployment. The pre-moistened gym wipes that are used at the facility for cleaning the fitness equipment and other surfaces contain no phenol and no alcohol, and are safe to use on seat pads, leg and arm-rests, benches, hand-grips, chrome-plating, painted surfaces, leather and rubber surfaces, and electronic panels.

"We've been using the Zogics wellness wipes for approximately two years," says Sonja M. Pabon, S4 GPC Supply Technician, Mobilization and Deployment Brigade, Fort Bliss.

"Wipes are used for the equipment,

especially during Flu season, and the product lasts a long time. We also keep a stock of it on hand, to replenish the supply. I've had nothing but a good relationship with Zogics, very responsive, great prices and service. No problems at all with the quality or effectiveness."

The wellness wipes come in 1,000-count rolls, and volume discounts and free dispenser programs are available. Zogics also offers an alcohol-free anti-

bacterial hand sanitizer PureGreen24, an EPA registered, broad spectrum antimicrobial disinfectant, which kill 99.99% of harmful germs and bacteria.

All Zogics products are proudly made in U.S.A, and 1% of sales is donated to organizations that help protect the environment. *For more information, visit www.zogics.com or call 888-623-0088.*

Legend Fitness Improves Web Site

East Tennessee-based strength manufacturer Legend Fitness recently introduced an exciting new feature to its Web site called "Build-a-Cage," which mimics a feature commonly found on automotive Web sites where visitors can visually customize a product to their liking before submitting a request for quote.

"It's an industry first," says marketing director Todd Black. "Some other strength manufacturers may have a color selector on their site where they demonstrate paint and upholstery shades on something like an Olympic bench, but Build-a-Cage is the first configurator in our industry that allows users to not only select colors, but they can choose among different models of Power Racks and Half Cages and then outfit them with options as they see fit.

"This is an important development for Legend Fitness because we are a build-to-order company that accommodates custom orders better than most of our competitors, whose products are usually shipped from overseas assembly lines."

Build a Cage now at www.Legend-Fitness.com using their lineup of 100% American made strength and performance products.

Power Systems Awarded GSA Contract

Power Systems Inc., an award winning fitness accessory and sports performance equipment supply company, has been awarded a Federal Supply Schedule contract through the General Services Administration (GSA) for items under the Multiple Award Schedule 78. Power Systems GSA number is: GS-03F-0058W. While Power Systems Inc. currently has many government customers, its GSA contract transactions will be smoother for their contracting staff. Power Systems Inc. has won the NOVA 7 award for the best specialized sports performance and fitness equipment supplier in the industry the last three years.

Bradley's New Aerix Hand Dryer

The Aerix™ hand dryer from Bradley is the first and only adjustable speed hand dryer available in the U.S. that suits any application. Multiple speeds give facility managers the option of turning up for fast drying in aquatics and recreational centers, or turning down for more quiet operations. Aerix is a "green" solution because it uses 80 percent less electricity than other dryers, and does not contribute to pollution or deforestation.

For more information call (800) BRADLEY or visit www.bradleycorp.com.
