# DEFENSE LOGISTICS AGENCY

As America's combat logistics support agency, the Defense Logistics Agency (DLA) provides the Army, Marine Corps, Navy, Air Force, Coast Guard, other federal agencies, and partner nations with the full spectrum of logistics, acquisition and technical services. The agency sources and provides nearly 100 percent of the consumable items America's military forces need to operate, from food, fuel and energy, to uniforms, medical supplies, and construction equipment. DLA also supplies nearly 88 percent of the military's spare parts. In addition, the agency manages the reutilization of military equipment, provides catalogs and other logistics information products, and offers document automation and production services. DLA is headquartered at Fort Belvoir, Va. As a global enterprise, wherever the United States has a significant military presence, DLA is there to support.

The DLA director reports to the Under Secretary of Defense for Acquisition, Technology and Logistics through the Assistant Secretary of Defense for Logistics and Materiel Readiness.

**DLA PRIMARY LEVEL FIELD ACTIVITIES:**
